4. In so far as it has been customary in a Contracting State to determine the profits to be attributed to a permanent establishment on the basis of an apportionment of the total profit of the enterprise to its various parts, nothing in paragraph 3 shall preclude that Contracting State from determining the profits to be taxed by such an apportionment as may be customary, the method of apportionment adopted shall, however, be such that the result shall be in accordance with the principles laid down in this Article.
5. In the determination of the profits of a permanent establishment, there shall be allowed as deductions expenses which are incurred for the purposes of the business of the permanent establishment including executive and general administrative expenses so incurred, whether in the State in which the permanent establishment is situated or elsewhere, but this does not include any expenses which, under the law of that State, would not be allowed to be deducted by an enterprise of that State.
6. No profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the purpose of export to the enterprise of which it is the permanent establishment.
7. For the purposes of the preceding paragraphs, the profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.
